

# ROBOTIC SURGERY, **THEN, NOW, AND BEYOND**

AN EVIDENCE-BASED FUTURE FOR  
ROBOTIC ASSISTED SURGERY

Presented by

Supported by

Join other world-leading experts in surgery where we will shine a light on the future of robotic surgery around the world. This global event will look at important topics including the great debate; robotics vs manual laparoscopic surgery. Have your say on the future of training, the importance of safety in medical devices and how technology can build a more equal surgical workforce.

## AGENDA

- |  |  |
|--|--|
| <b>11:00 - 11:30</b> Keynote   | <b>13:45 - 14:45</b> Why are we still debating lap vs surgical robotics? |
| <b>11:30 - 12:15</b> Truth or Hype: Does AI bring value to the OR?                               | <b>14:45 - 15:00</b> Networking  |
| <b>12:15 - 12:30</b> Networking  | <b>15:00 - 16:00</b> Is robotic surgery really a luxury?                 |
| <b>12:30 - 13:30</b> Standardisation - Are we really ready to train our future robotic surgeons? | <b>16:00 - 16:15</b> Closing   |

## WHO SHOULD ATTEND

  
**Surgeons**

  
**Surgical  
Teams**

  
**C-Suite**

  
**Trainees**
